SPIRIT OF SAFETY

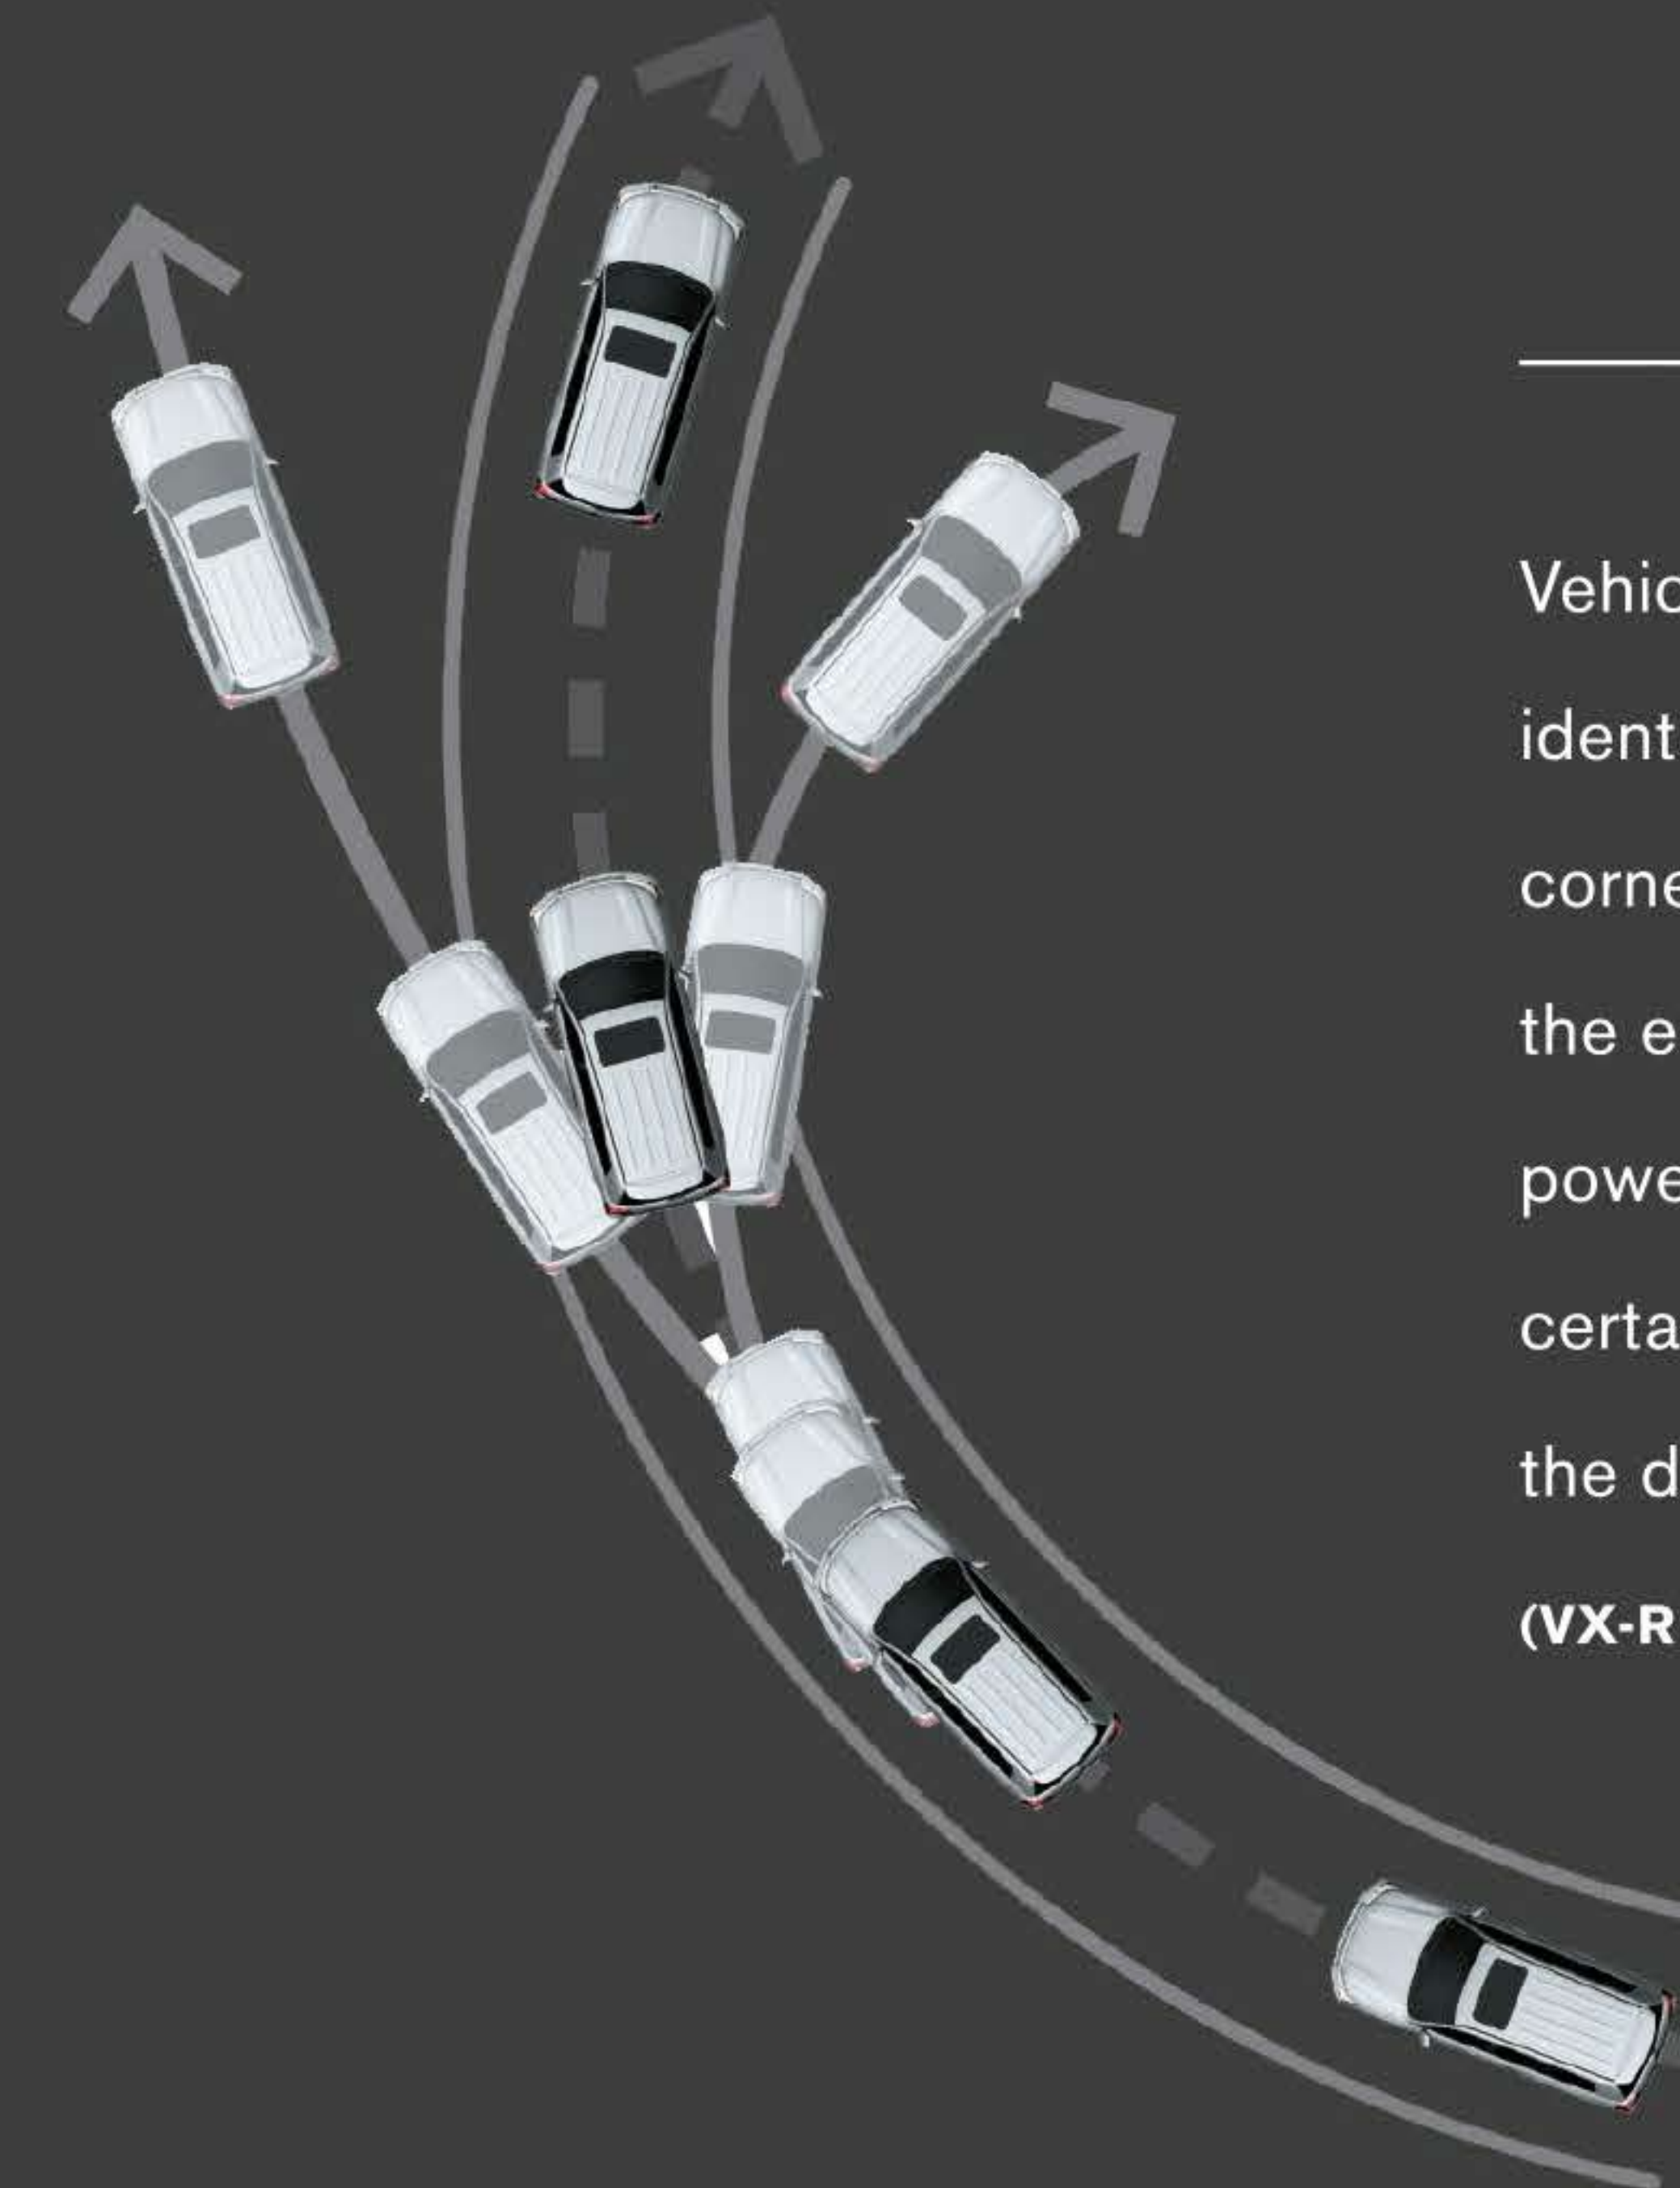

Land Cruiser 200 cruises easily over terrain that would stop lesser vehicles in their tracks. When you have been tackling extreme environments as long as Land Cruiser has, you will learn how to combine both engineering and advanced technologies to assist you towards destination.

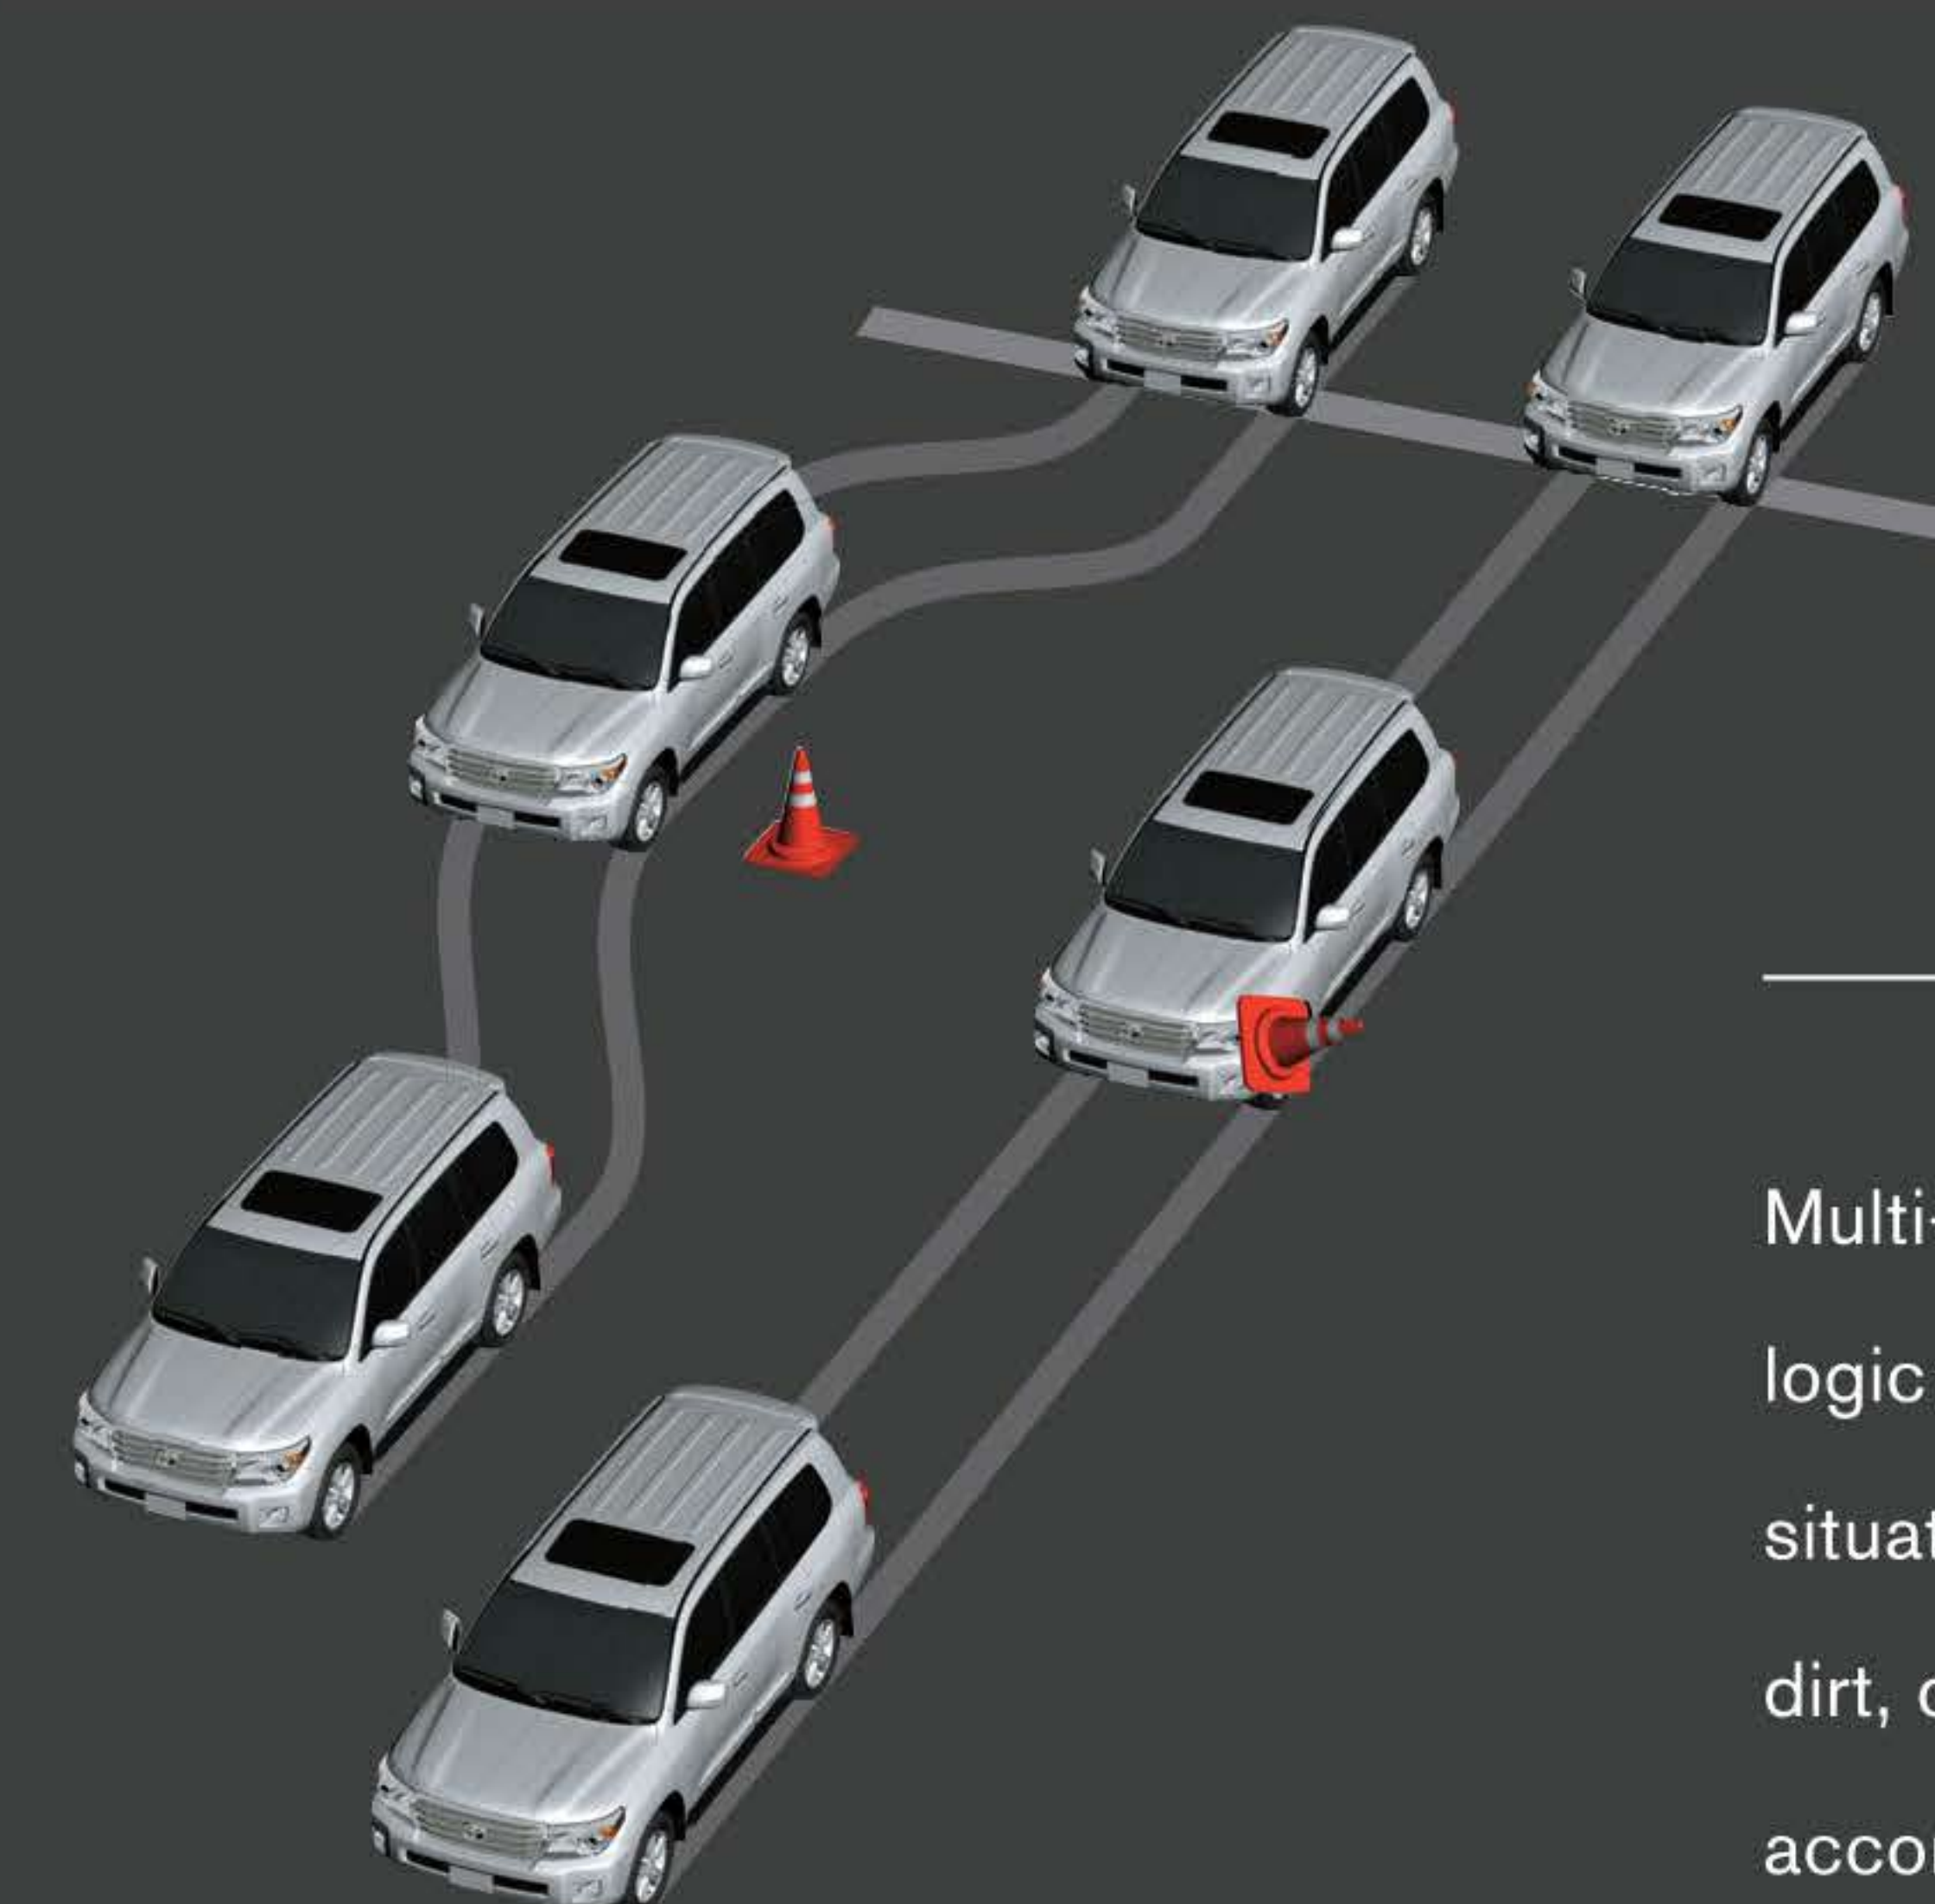

The Land Cruiser 200 is built with unitized steel body on 10-member high tensile steel ladder frame.

Hill-start Assist Control assists the driver by applying the brakes to stop the vehicle whenever rollback is perceived (VX-R Type).

Vehicle Stability Control identifies lateral skidding during cornering. Automatically controls the engine output by reducing the power and apply the brakes on certain tires if necessary. Assist the driver for optimum control. (VX-R Type).

Multi-terrain ABS with new control logic detects off-road driving situation whether you are on mud, dirt, or sand and adjust the ABS accordingly to the terrain condition.
